

June 26, 2020

Due to the COVID-19 health crisis, the deadline for CRNAs who will be due to renew their credential this year between July 31 and November 30, has been extended by four months. All CRNAs due to renew their credential this year between these dates will **now have until November 30, 2020** to submit their materials to the NBCRNA for review and approval for renewal. Credentials due to be renewed this year between the July and November dates, which are not renewed on or before the revised November 30, 2020 deadline, will expire and will be lapsed beginning December 1, 2020. This change is for this year only.

We are notifying boards of nursing in advance to prevent misunderstanding about due dates for credential renewal, which may not be reflected accurately in your systems due to this change in deadline dates. The extension of our renewal deadline date is for this year only and encompasses all CRNAs due to renew their credential this year between July 31 and November 30.

Should you need any additional information related to this extension of our renewal deadline, please contact Ms. Colleen Ahearn ([cahearn@nbcrna.com](mailto:cahearn@nbcrna.com)). Upon notification/request, we can send you a state-specific list of certificants who are affected by this renewal date extension.

Sincerely,

John C Preston, DNSc, CRNA, FNAP, APRN  
Chief Credentialing Officer
