Dear Health Care Providers,

The success of the COVID-19 vaccination campaign will depend on the collaboration of the Iowa Department of Public Health (IDPH), Iowa local public health agencies and Iowa health care providers to administer pandemic vaccines. All health care providers and organizations interested in receiving and administering COVID-19 vaccines in Iowa are required to complete the CDC COVID-19 Vaccination Program Provider Agreement. IDPH will utilize a REDCap survey to document provider acceptance of the terms to serve as a COVID-19 vaccine provider. The survey includes a PDF of the CDC COVID-19 Vaccination Program Provider Agreement in its entirety.

The CDC COVID-19 Vaccination Program Provider Agreement, includes basic information regarding the organization, including clinic hours/days of operation, provider type and setting, patient population served, demographic logistical information for receiving COVID-19 vaccine shipments, number of patient's the clinic is able to vaccinate weekly and vaccine storage capacity (refrigerated/frozen/ultra-cold temperature).

Health care provider sites interested in offering pandemic vaccines must also enroll in IRIS. Sites not currently enrolled in IRIS, should do so at this time.
