

List of Potentially Disqualifying Criminal Convictions for licensure

In accordance with Iowa Code section 272C.15(2), the Board provides the following list of specific convictions that may disqualify an applicant from receiving a license. In addition, any offense specified in the laws of another jurisdiction or prosecuted in a municipal, federal, military, or foreign court that is comparable to a conviction listed herein may disqualify an applicant from receiving a license.

Please be advised that just because you have been convicted of one of the offenses listed does not mean you are automatically prevented from obtaining a license. The following offenses are only disqualifying if (1) the actions taken in furtherance of the offense are customarily performed within the scope of practice of the profession, or (2) the circumstances under which the offense was committed are circumstances customary to the profession. Additionally, even if your conviction is disqualifying, you are entitled to submit proof of rehabilitation to the Board to demonstrate your current fitness to safely practice in the profession.

If you are interested in applying for a license and have been convicted of an offense on this list, you may petition the Board for an eligibility determination or submit all relevant information as part of your application for licensure, pursuant to House File 2627. If you have questions about what criminal history information to include with your license application or how to submit a petition for eligibility determination, please contact the Board office for assistance.
