

IOWA TECHNICIAN TRAINEE REGISTRATION INSTRUCTIONS

Complete the attached Iowa Board of Pharmacy technician trainee registration application. When completing this application, please be advised of the following:

- A person who is enrolled in a college-based or American Society of Health-System Pharmacists (ASHP)-accredited technician training program must obtain a pharmacy technician trainee registration prior to beginning on-site practical experience. A person who is employed in a pharmacy and who is receiving pharmacy technician training through work experience must obtain a pharmacy technician trainee registration prior to working in the secured pharmacy area.
- All sections of the application must be completed. **Incomplete applications will delay the issuance of your registration.** Unsigned applications will be returned.
- Failure to answer all questions completely and accurately, including omission or falsification of material facts, may be cause for denial of your application or disciplinary action. When in doubt, answer “yes” and provide an explanation.
- Registrations are issued administratively following review of a completed application and all required documentation, unless the application warrants referral to the Board, or unless a personal appearance is required.
- Applications expire 45 days from the date of receipt. You will be notified by email if additional information is required. If the application has not been completed within 45 days, a new application and fee will be required.
- National pharmacy technician certification is expected to be attained prior to the expiration of trainee registration.
- **Employment** means that you have been hired by a pharmacy to perform the duties of a pharmacy technician trainee, not necessarily that you have actually started working in the pharmacy. Please identify the pharmacy that has hired you and the anticipated start date to physically work in the pharmacy as a technician trainee. If you have already started working in the pharmacy as a technician trainee, you must indicate the exact date that you started working in the pharmacy as a technician trainee. If you have been working for the company in another capacity, or working in the pharmacy in another pharmacy position, but are just now to begin the duties of a pharmacy technician trainee, indicate the anticipated start date you will begin or the actual start date you began to perform the duties of a technician trainee, not the initial date you were hired to work elsewhere with the company or to work in the pharmacy in another position.
- **Military veteran applicants** are eligible for waiver of the initial application fee and one renewal fee if the applicant was honorably or generally discharged from federal active duty or national guard duty within five (5) years prior to application submission. **Applicants seeking waiver of the initial application fee or renewal fee must submit a copy of their Certificate of Release or Discharge from Active Duty (DD Form 214) or Verification of Military Experience and Training (VMET-DD Form 2586).**
- **Income-based fee waiver** is available to applicants who are applying for **initial** registration and whose household income does not exceed 200% of the Federal Poverty Level. Applicants who meet the terms and conditions for such fee waiver must include the “Initial Fee Waiver Application” form with this application.

Disclosure of Medical Conditions, Criminal History, and Disciplinary Action

Be advised that the application for technician trainee registration asks about any medical conditions you have that might impair your ability to perform delegated technical functions. The Board also considers any prior criminal history and disciplinary actions when issuing technician registrations. As part of the application process, you will be asked questions about medical conditions that may impair your ability to perform delegated functions, prior criminal history and disciplinary actions.

If you have any questions concerning these requirements, please notify the Board office. If any of these situations pertain to you, there may be delays at the time of registration. We suggest you contact the Board office for information as to what

documentation may be necessary for registration. Contacting the Board office about any of these situations may avoid unnecessary delays at the time of registration.
